

THE ARS/BEVERLY PACIFIC DIFFERENCE:

Others offer you what they have.
We build exactly what you need.

General Purpose,
Prevacuum, cGMP,
custom designs
and cycles.

ARS / BEVERLY PACIFIC AUTOCLAVES

Innovative design and engineering solutions that meet our customers specific sterilization requirements.

ARS/BP Autoclaves are assembled using standard or custom designed Beverly Pacific pressure vessels manufactured to ARS specifications using the Beverly Pacific proprietary wedge lock door, believed to be the most reliable door lock mechanism with the fewest moving parts on the market.

New units include a 2-year parts and labor warranty and 15-year warranty on new pressure vessels. ARS Autoclaves also are available as custom assembled remanufactured units. We utilize used pressure vessels provided by our customers or from our inventory, which are fully refurbished and re-pressure tested in our factory per original ASME specifications.

Remanufactured cGMP Sterilizer

New ARS/BP Lab PV Autoclave

Innovation

State-of-the-art Frontier 2020™ PLC control system.

ARS innovated sterilizer control systems in the mid-1980s with what is believed to have been the first PLC based sterilizer controller. Continuously upgraded and improved, it is now known as the Frontier 2020™ sterilizer control system. ARS offers cGMP remanufactured sterilizers or Beverly Pacific sterilizers with Frontier 2020™ controls in many configurations and sizes. All are custom assembled to individual customer requirements. All known cycle types are available including :

- Gravity
- Prevacuum
- Liquid
- Liquid AOP
- Liquid SAM
- Cascading Water
- EN-285 Compliancy
- F₀ Controlled

What sets ARS / Beverly Pacific apart:

Experience in what you do.

Custom engineered products.

24/7 live personal service.

Low cost of ownership.

AUTOCLAVE REPAIR SPECIALISTS

Since 1971, ARS has earned a reputation for providing exceptional repair service and support to the medical and healthcare markets.

ARS offers factory direct on-site service throughout California as well as 24/7 telephone support. Our services include ARS repair, refurbishment, remanufacturing and assembly of custom designed new equipment either in the field at the customer's facility or in the company's repair depot and assembly shop in Paramount, CA. Services are provided either on a time and materials basis, as a fixed price "bid job", or under a preventative maintenance agreement. ARS employs Field Service Representatives in Northern and Southern California and in its repair/ assembly facility in Paramount, CA. Service is provided outside California on a bid job basis. In addition to it's own products, ARS is factory authorized to service all the brands it is authorized to market, sell or distribute. It is also factory authorized or experienced in servicing virtually all competitive brands of the same type of cleaning, sanitization and sterilization equipment.

ARS Services

PM Agreements

- Quarterly, semi-annual or annual
- Labor only or with parts included
- Optional NIST Traceable Calibration
- PM Inspection Reports on each visit

Certified Calibration

- NIST traceable instruments
- Temperature
- Pressure
- Time
- Instrument Calibration Report (ICR)

Time and Materials Repair

- Published hourly/daily rates
- Discounted rates with PMA
- Deep discount shop rates
- After hours 1.5x with 3 hour minimum
- Travel at standard rate, one way
- Service call report

Equipment Installation

- Hook up to facility services
- Start-up and testing
- Customer inservice
- Installation Qualification (IQ)
- Operational Qualification (OQ)
- IQ/OQ checklists with SCR

Performance Standards

- By phone: 4 business hours
- On-site: 24 business hours
- During regular business hours
- Within direct service areas

FACTORY AUTHORIZED SALES

ARS is an authorized sales agent or distributor for cleaning, sanitation and sterilization products manufactured by a select group of other manufacturers.

In addition to ARS / BP autoclaves, we proudly represent several allied companies in offering their products. ARS also services all of the equipment it markets, sells and distributes. We are committed to providing our customers with products that meet their specific requirements and service that ensures optimal long-term performance.

Electro-Steam Electric Boilers

SWASH™ Deluxe Portable Steam Generator

Tuttnauer Tabletop Autoclave

Biomist Spray Alcohol Sanitizers

About ARS

ARS ENTERPRISES was founded in 1971 as an independent field service company serving the healthcare, pharmaceutical, medical device, and medical diagnostics industries. In 1975 the company incorporated and began offering custom manufacturing as a very specialized service to its customers. In 1985, the company acquired the rights to the pressure vessel designs of Beverly Pacific and engaged the services of an ASME certified welding shop to custom fabricate to order for ARS customers. To meet the needs of its customers, ARS is also a manufacturer's representative and distributor for a variety of cleaning, sanitization and sterilization equipment. With sales representatives throughout North America, the Authorized Resale Services division offers products from specialized manufacturers throughout North America and Europe to the healthcare industries.

As the ultimate service, ARS custom manufactures autoclaves in its Beverly Pacific division to meet the unique needs of microbiology labs, pharmaceutical firms, biotech companies, nutraceutical companies, medical device, medical diagnostics and cosmetics manufacturers. Using ASME pressure vessels manufactured by independent certified ASME shops, ARS assembles finished units at its facility in Paramount, CA where they are operated and tested for full functionality.
